Dear Sir/Madam,

Calderdale Local Plan – Post Stage 4 Hearing Matters – Waste Site 436, Atlas Mill Road

Thank you for consulting Historic England on the proposed mitigation measures for Waste Site 436, Atlas Mill Road.

We welcome the proposed developable area for the site, along with the intention to require the retention of the tree belts along the site boundaries with the River Calder and Calder and Hebble Navigation as part of the site-specific considerations in the Local Plan. These measures will help to avoid or minimise any harm to the significance of the designated heritage assets in the vicinity of the site, in particular the grade II listed Ganny Lock.

If you have any queries or would like to discuss anything further, please do not hesitate to contact me.

Yours sincerely

James Langler
